

FOOD GRADE CHAIN & CABLE LUBRICANT

No. 862

NSF H-1 Certified

DESCRIPTION:

Food Grade Chain & Cable Lubricant is a mixture of penetrants, anti-oxidants, and oils. These penetrate into chain components and cable strands to provide maximum lubrication and rust prevention.

This very versatile chain lubricant is registered with the National Sanitation Foundation (NSF) as suitable for incidental contact with food or food processing equipment, H-1 designation.

FEATURES:

Food Grade Chain & Cable Lubricant is specifically designed to penetrate chains and lubricate the rollers, pins and bushings reducing chain whip, vibration and noise. This unique formula will not build up on chains to attract dust and dirt, this will greatly extend both chain and sprocket life.

USES:

Chains	Cables	Wire Rope
Sprockets	High-Speed Chains	Roller Chains
Hoist Chains	Drive Chains	Drag Chains
Leaf Chains	Table Top Chains	Detachable Chains
Flat-Veyor Chains	Quadruple Chains	Conveyer Chain

TYPICAL APPLICATIONS:

Canneries	Bottle Plants	Bakeries
Pellet Mills	Dairies	Food Processing
Meat Packing Plants	Creameries	Harvesting Equipment
Breweries	Wineries	

... and many other industrial and agricultural applications requiring a tough, durable, water tight lubricating film.

PERFORMANCE CHARACTERISTICS:

Food Grade Chain & Cable Lubricant will provide excellent protection against:

Extreme Pressure	Elevated Temperatures	Oxidation
Friction	Moisture	Corrosion

PERFORMANCE PRODUCTS GUARANTEED
