

Pro Series Shock Oil

Premium High Temp High VI Shock Oil
No. 355

DESCRIPTION

Pro Series Shock Oil is an advanced synthetic based suspension fluid designed to provide optimum damping performance in all on and off road suspensions. Its synthetic base stock has a high viscosity index (VI) that provides superior anti-fade damping performance over a wide temperature range.

FEATURES:

Pro Series blend of synthetic fluids and the latest additive technology create outstanding thermal and oxidative stability. **Pro Series** provides excellent boundary lubrication resulting in higher lubricity, lower wear and better corrosion protection. Shocks using **Pro Series** require less oil change outs resulting in less maintenance costs. **Pro Series** has excellent hydrolytic stability, air release and water separation properties.

ADVANTAGES

- Designed to provide reliability to suspension systems
- Reduces friction, lowers operating temperature
- Outstanding antiwear performance
- Prevents oxidation and corrosion
- Enhances protection and condition of seals
- Protects front forks and shocks
- Excellent foam release and foam control
- High shear stability

TYPICAL SPECIFICATIONS

Property	Test Method	Units	Pro Series
Color			Amber
Specific Gravity	ASTM D-1298		0.8210
Viscosity @ 40 °C (104 °F)	ASTM D-445	cSt	16.5
Viscosity @ 100 °C (212 °F)	ASTM D-445	cSt	5.0
Viscosity Index	ASTM D-2270		266

Values shown here are typical, and may vary.
