PEN-SAFE

NON-FLAMMABLE PENETRANT
AND MOISTURE REMOVER
No. 853

DESCRIPTION:

Pen-Safe Penetrant is a multi-purpose, anti-rust, anti-corrosion penetrant, lubricant, moisture remover and cleaner.

TYPICAL OPERATING CONDITIONS:

Pen-Safe Penetrant is formulated to penetrate into the threads of rusty bolts even when they are countersunk. It is a handy and quick way of maintaining satisfactory operation and/or even correcting faulty behavior on a variety of machines and mechanisms. Designed to provide corrosion protection, leaving a protective film that is non-greasy and non-staining.

FEATURES:

Pen-Safe penetrates through rust and corrosion in as little as 15 seconds allowing fast and easy removal of rusted or seized components.
It is designed to:

Loosen and Prevent Rust	Clean Grease, Dust, Dirt & Sludge
Prevent Corrosion	Penetrate & Free Nuts, Bolts, & Fittings
Displace Moisture	

TYPICAL APPLICATIONS:

Automobiles	Power Tools
Construction Equipment	Controls
Farm Equipment	Gauges
Corroded Nuts & Bolts	Piping
Locking Mechanisms	Sleeved Cable Drives
Machine Shops	Mills

For general purpose use in the shop, farm or factory where a lubricant and corrosion preventative is needed.
